

NEW DICKINSON SCHOOL—DICKINSON, Nov. 5.—(Sp)—Here are two views of the new Dickinson school system buildings, opened for the fall term after erection at a cost of more than \$300,000. At the top is the auditorium, capable of seating 500 persons and richly finished inside and out. At bottom is the fine home economics department building, called by educational experts one of the best of its kind in the state. The new school buildings occupy a full block of ground, while athletic field and manual training shops occupy additional ground.
