Growing For the Next Decade at Dickinson High School

Dickinson High School Baseball Field

Opening: March 2009
Architect: PBK Architects
Contractor: Bartlett-Cocke

The Dickinson High School baseball program is proud to have a new home as they begin competition in the UIL 5A Division. The new facility offers seating for 500, a concession stand and batting cages for practicing. The new facility is complete just in time for the 2009 district season.

Dickinson High School Agricultural Science Center

Opening: March 2009
Architect: PBK Architects
Contractor: Durotech

It's full steam ahead for the Dickinson High School agricultural program, which now has a large facility for students to raise sheep, pigs and cattle. The ag barn features several sections of animal pens, a show area, and a grazing area for cattle -- all in a secure, gated complex.
