The Dickinson Gators will be a member of district 60 six-man football setup this coming fall and is the fifth Galveston County school to be a member of that district as they will be in the same district with Santa Fe, League City, La Marque and Friendswood. There should be some swell games when these county teams get to tearing into each other. This will be the Gators first venture into the organized six-man field, although playing as an independent team last year they met most of the district teams.
