BOARD OF EDUCATION

Mr. H. E. Jackson, President

Mr. Wolston

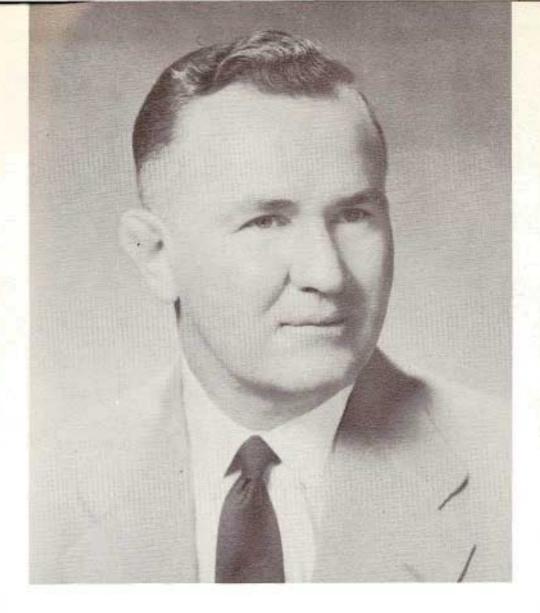

Mr. Alexander

Mr Malin

Mr. Allspach

Mr. McCullough

Dr. Andrew Magliolo

MR. O. J. BAKER Superintendent of Schools

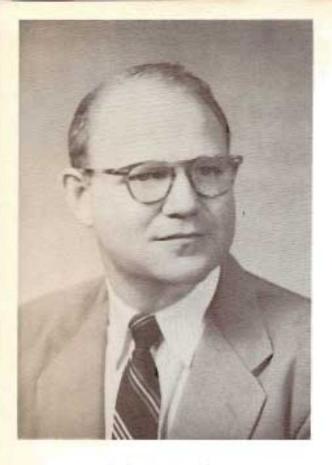

Dear Students,

While you enjoy high school life here in DHS, you should take advantage of all the wonderful educational opportunities which are available. Your parents are paying or have paid for your high school education—please get all that is yours. Don't leave here with a half-education. Your community has provided a good school building, excellent equipment, and a wonderful location. It pays a faculty that has been selected from several hundred applicants. It will continue to provide you with the best opportunities in the hope that you will take full advantage of them.

Many of you will go on to college from DHS and for that reason the subjects have been arranged to insure your probable success in college or university study. Former DHS students have attained high honors in colleges all over the U.S. Opportunity to follow in their footsteps is yours. If you are one of the few who will not go on to college then it is very important that you obtain a sound education now so that you can earn a living and take up your full responsibilities as an American citizen. You, as a non-college student should be even more sure that you get your education now, for this is probably the last formal training that you will have. A student who leaves here with a half-education is like the rancher who goes to the auction with \$50 and all of the cows sell for \$100.

Please call on me at any time that I can be of help to you. Best wishes for happiness and success in the years ahead.

Sincerely,

R. D. McADAMS Principal, High School

Dear Students.

I would like to take this opportunity to pass on to you some thoughts that I think may be of

great benefit to you.

Forward March is the idealistic clarion call to a way of life. The very process of marching indicates self-discipline, ability to participate as a part of a unit, realization of the need for order, and a willingness to subordinate oneself to a central command or administration. Certainly these four mental attitudes are essential to mature development.

As a mental and psychic direction, forward is the only acceptable choice. Backward is a negative direction, indicating a retreat from life; and any side direction is a deviation from a clear cut path of advancement. So "forward march" it must be. For high school students everything lies ahead. Your lives, to this point, have been merely thresholds. The real meaning of life and of your individual destinies looms ahead. You must march forward as soldiers of life on the road of education in order to attain a more meaningful life.

Congratulations to the "Gator" staff and the student body on the completion of a good year's

work.

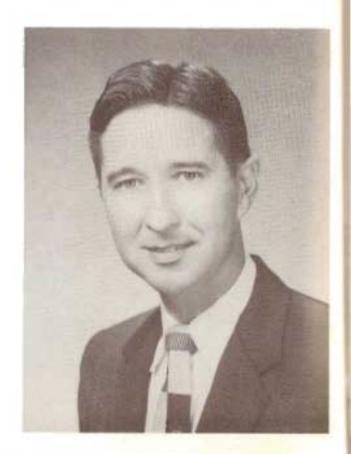

Yours truly, R. D. McADAMS Principal

In meeting the daily challenges that beset a teacher or a principal there is need to search for a reserve source of motivation and direction. But fortunately such a reserve is present on every hand. It is merely faith in youth—a sincere belief that the education we offer our boys and girls will bring them happiness and success in the finest way of life man has ever known.

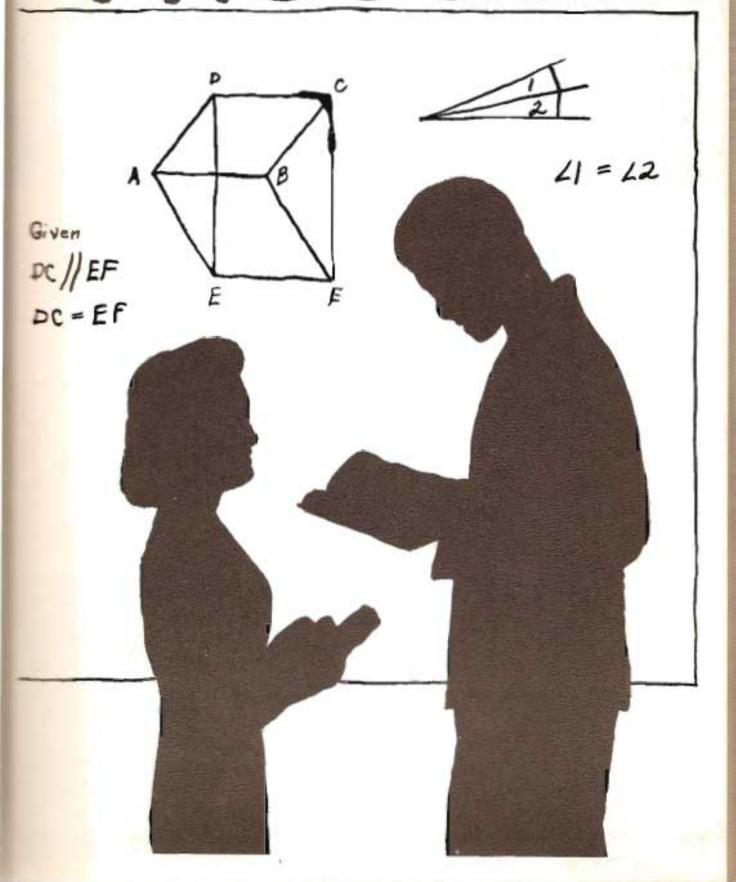

Working with the students and teachers of Dickinson Junior High School this year has been an inspiration and a pleasure. My sincere wish for all my students is that they will come to have as much faith is their fellow man as I have had in

them_
